|                                 |                                                          |
|---------------------------------|----------------------------------------------------------|
| <b>Programming</b>              | C, C++, Java, Python                                     |
| <b>Web Development</b>          | HTML5, CSS3, JavaScript                                  |
| <b>Framework / Backend</b>      | Django                                                   |
| <b>Tools &amp; Technologies</b> | Git, GitHub, VS Code, GitHub Pages                       |
| <b>Core Skills</b>              | Problem Solving, Logical Thinking, Responsive Web Design |

## PROJECTS

### Portfolio Website | HTML5, CSS3, JavaScript, GitHub Pages

- Developed a responsive personal portfolio to showcase technical skills, projects, education, and professional contact information.
- Implemented interactive sections, responsive navigation, dark mode, and project links.
- Deployed the website using GitHub Pages.

### Calculator | HTML5, CSS3, JavaScript

- Developed a functional web-based calculator with a user-friendly interface.
- Implemented basic arithmetic operations using JavaScript.
- Integrated the project into the personal portfolio.

### Student Management System | HTML5, CSS3, JavaScript

- Developed a simple student record management web application.
- Implemented student data entry using fields such as student name, roll number, and course.
- Created an interactive student list using JavaScript and deployed the project through GitHub Pages.
